MORE PEOPLE RUN.
FEW KNOW WHAT FUELS THEM.

37,368 trail race finishes in Portugal in 2024, and almost six times more trail association members than in 2016.

What's in the most common gels?

What if fuel came straight from nature?

The answer grows on Portuguese trees.

MORE PEOPLE RUN.
FEW KNOW WHAT FUELS THEM.

37,368 trail race finishes in Portugal in 2024, and almost six times more trail association members than in 2016.

What's in the most common gels?

MALTODEXTRIN · POTASSIUM SORBATE · SODIUM BENZOATE
AND 9 MORE . . .

What if fuel came straight from nature?

The answer grows on Portuguese trees.

Quilate | Gel | Protein bar | Made for You

NATURAL SPORTS NUTRITION

QUILATE

Pure Gold

Portuguese carob turned into fuel.
An energy gel for the race, a protein bar for recovery.

Made for you.

Same Goal: **Spread Portugal's natural gold to every athlete who wants to go further.**

FROM CAROB SEEDS TO CARATS: THE STORY BEHIND QUILATE

Keration

From the Greek word associated with carob seeds, historically used as small weights.

→

Carat

The seeds became the unit used to weigh gold and gems.

→

Quilate

The Portuguese word for carat, representing the value of our roots and the identity of our brand.

Why carob.

Naturally sweet and deeply rooted in the Algarve's heritage, carob is the heart of every Quilate product, bringing Portuguese tradition and innovation together.

Who we are.

A Portuguese sports nutrition startup founded by five Industrial Engineering and Management students, based in the Algarve and focused on developing and producing innovative sports nutrition products.

Our mission

Fuel athletes who go the distance with natural nutrition, made simple and made in Portugal

Vision: a sports community that knows what fuels it, running on Portugal's natural gold.

OBJECTIVES

Clubs and races: partner with local clubs, coaches and races across Portugal.
Honest labels: short, open recipes, so every athlete knows what fuels them.
Beyond Portugal: take our natural products to athletes in new markets.

CHALLENGES

Ensuring product quality, nutritional performance and shelf stability
Building brand awareness in a competitive market
Scaling production while maintaining affordable costs and regulatory compliance

OUR VALUES

AUTHENTICITY

Valuing our Portuguese roots and the producers behind every ingredient.

EXCELLENCE

Striving for the highest standards of quality throughout every stage of product development and production.

ADAPTABILITY

Listening to athletes and our community, and evolving with their needs and with more sustainable practices.

WHAT DO WE MAKE?

Two Products

MADE JUST FOR YOU!

NATURAL · MADE IN PORTUGAL

DURING THE EFFORT. AFTER THE EFFORT.

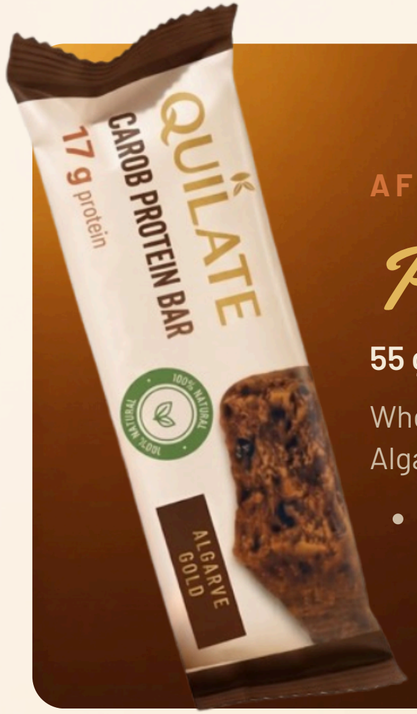

DURING · CORE

Energy Gel

40 g · ≈25 g carbs · ≈100 mg sodium

Algarve carob syrup, honey, lemon, sea salt.

- **Standard** or **With Caffeine (50mg).**

AFTER · RECOVERY

Protein Bar

55 g · ≈17 g protein · ≈210 kcal

Whey protein, carob, Portuguese almonds, Algarve figs, honey, sea salt.

- **High in Protein and Fibre.**

Natural Portuguese ingredients, carob-based products without additives. Nutrition values are estimated, to be confirmed in the lab.

03 · PRODUTO · A GAMA

DURANTE O ESFORÇO. DEPOIS DO ESFORÇO.

DURANTE · ESSENCIAL

Gel Energético

40 g · ≈25 g hidratos · ≈100 mg sódio

Xarope de alfarroba do Algarve, mel, limão, sal marinho.

- **Normal ou Com cafeína (50 mg).**

DEPOIS · RECUPERAÇÃO

Barra Proteica

55 g · ≈17 g proteína · ≈210 kcal

Proteína whey, alfarroba, amêndoa portuguesa, figo do Algarve, mel, sal marinho.

- **Rica em proteína e fibra.**

Ingredientes naturais portugueses, produtos à base de alfarroba e sem aditivos. Valores nutricionais estimados, a confirmar em laboratório.

NOT JUST ANOTHER *natural gel.*

	Origin · price per gel (size)	Energy from
Snupe	Portugal · 2.50 € (76 g)	Glucose + isomaltulose
Innerme	Belgium · 3.38 € (40 g)	Rice syrup + honey
Meltonic	France · 2.99 € (20 g)	Honey
SiS · GU · Maurten	Global · 1.59 to 3.25 € (40 to 60 g)	Maltodextrin or glucose syrup
Quilate	**Portugal · ≈ 2.20 € (40 g, target)**	**Portuguese carob + honey**

Natural gels exist. Carob ones don't. We are the first, and made in Portugal.

Run on gold.

A natural gel for the race, a protein bar to recover.

From Portuguese carob, once the measure of gold.
